

Fiber Optic Lint-free Foam Clean Swabs Datasheet

1.25/2.5mm Fiber Optic Lint-free Foam Clean Swabs, 100pcs/pack

Fiber Optic Lint-free Foam Clean Swabs are ideally suited for cleaning contaminations from all 1.25/2.5mm fiber adapters and connectors. The 1.25/2.5mm diameter tip is made of polyester and polyurethane and handle material is polypropylene of high quality. Therefore, in spite of low price and easy operation, fiber optic lint-free foam clean swabs have excellent performance in cleaning.

Benefits

- Removing Contamination on the End Face to Improve the Efficiency of Optical Work
- Provide Different Model Sticks for Different Sizes Connectors, Like LC/MU/SC/FC/ST/LSH
- One-push Operation Without Special Skills Responds to the Need for Endface Cleaning
- Apply for Fiber Industry, Hard Drive Manufacturing, Laboratory Maintenance, and so on

Product Specification		
Part Number	FWCS-701	FWCS-702
Connector Type	For 1.25mm LC/MU	For 2.5mm SC/FC/ST/LSH
Tip Material	Polyester & Polyurethane	Polyester & Polyurethane
Handle Material	Polypropylene	Polypropylene
Package Contents	100pcs/Pack	100pcs/Pack
Disposable	Yes	Yes
