

# Faceplate Frame Insert Datasheet

## Overview

The Faceplate Frame System is designed to support the distribution of voice, data, and other communication needs to the work area for commercial or residential applications. It includes faceplate frame and faceplate frame keystone insert, which are used together with keystone jack modules to help create a cleaner home environment.

Faceplate frame and faceplate frame keystone insert are available in many ports and sizes to fit your needs. These faceplates provide versatility for installations by installing only the required jacks to provide a professional installation environment while keeping wiring organized.

## Benefits

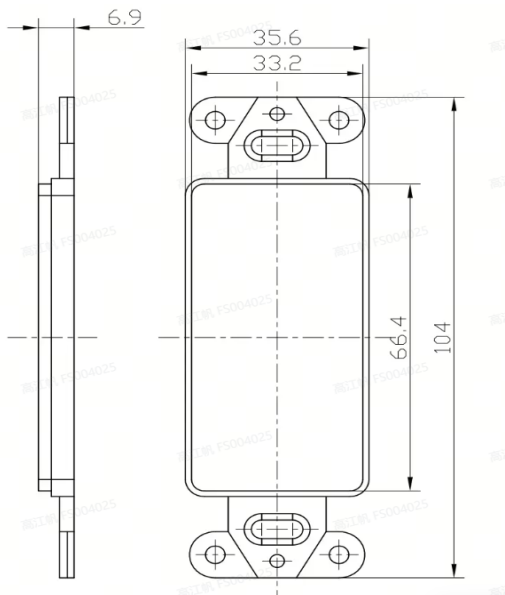

- Mount to Back Box with Faceplate Frame, Compatible with Any Type of Keystone Jack Modules
- Narrow Module Width Allows High Port Density in a Small Area
- High-strength ABS Construction Designed to Last Long in Your Decor
- Ideal for Home Theater, VoIP or Ethernet In-wall Wiring Installations
- Eliminate Clusters of Wires and Hide them Behind the Wall

Technical Specification

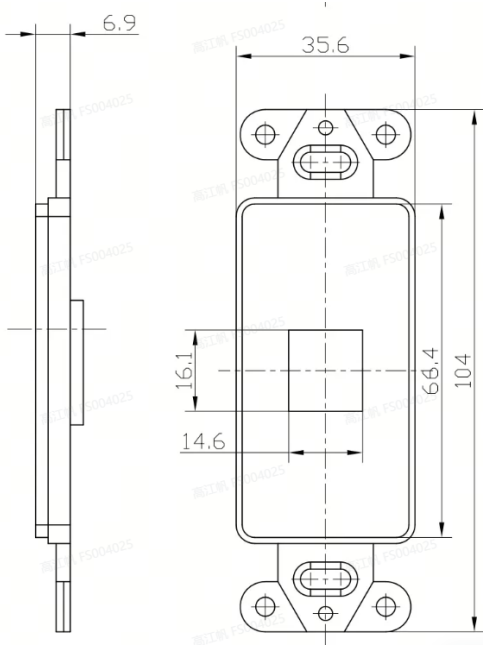

| Parameter             | Value                      |
|-----------------------|----------------------------|
| Number of Ports       | 0/1/2/3/4//6               |
| Connector Type        | RJ45 Ethernet              |
| Material              | ABS                        |
| Gang Opening Type     | Single Gang                |
| Color                 | White/Ivory                |
| Operation Temperature | -25 to 70°C (-13 to 158°F) |
