

Self-locking Cable Ties Datasheet

Overview

Fasten and identify bundles at the same time with our wire-on flag cable ties. Identify, label, and document your assets for a quick, professional management process. The ID Marker Cable Ties with a blank flag offer an easy and cost-efficient wire and cable identification solution. The sheer volume of use and relatively simplistic design equate to the zip tie being a very economical device for routing wire harnesses in Data Center Cabling Systems.

Benefits

- Easy Identification of Wires Due to the Outside Flag Design, Printable Labels or Writing are Available
- 22lbs (9.97 kg) Tensile Strength, Strong for High Quality Performance
- Flexible Tails Insert into Head for Self-locking Connection
- Made of a UV-stabilized Nylon Based Material for Reliability and Durability
- For Sorting out Cables and Wires for Household and Various Industries Cabling Systems

Technical Specification

Parameter	Value
Color	Blue, Green, Red, Yellow, White
Material	Nylon
Environment	Indoor/Outdoor
Thickness	1.2mm
Maximum Bundle Diameter	1.97" (50mm)
Minimum Loop Tensile Strength	97.86N (22lbs)
UL Flame Rating	94V-2
Package	100-Pack
Dimensions (LxW)	6.5"x0.15" (165x3.5mm)
Working Temperature	0 to 85 (32 to 185)

Product Specification

Unit:MM
