

RACK MOUNTING 1RU EQUIPMENT JUST GOT A WHOLE LOT FASTER

INTRODUCING THE RACKSTUDS DUO

The revolutionary 1RU replacement for
cage nuts. Used to mount IT, Pro A/V,
Security & Telco equipment in 19" racks.

**RACK
STUDS™**

Series II

DUO *Version*

**RACK
STUDS™**

Hole Size	
EIA-310 requirement	9.50mm/0.374"
Rackstuds™ DUO	9.2 - 9.89mm/0.362 - 0.389"

RACK YOUR GEAR 50% FASTER WITH DUO'S

***Series II* DUO**

**RACK
STUDS™**

THE SMART CHOICE FOR TECH PROFESSIONALS

RACKSTUDS ARE FAST

Insert from the back and install in seconds. Makes even single-handed installs easy.

RACKSTUDS ARE STRONG

Made from durable thermoplastic. Rated to hold equipment up to 20kg (44lbs).

RACKSTUDS ARE SAFE

Non-conductive reinforced thermoplastic. They won't scratch your equipment.

RACKSTUDS ARE UNIVERSAL

One size fits all vertical square punched rails.

HOW TO INSERT THE NEW DUO

- 1** Locate the top stud at the beginning of the 'RU' space.
- 2** Compress the spring section and insert the DUO from the rear in the center hole.
- 3** Push all the way in until the spring clip latches onto the vertical rail.
- 4** Mount your gear and add the nuts... done!
