

SC/UPC to SC/UPC Singlemode Simplex Fiber Adapter

Overview

The SC/UPC to SC/UPC single mode simplex fiber adapter is a small device designed to terminate or link the fiber optic cables or fiber optic connectors between two fiber optic lines. By connecting two connectors precisely, fiber optic adapters allow the light sources to be transmitted at most and lower the loss as much as possible. It features low insertion loss for high-performance transmission and 1000 times of durability. The adapter is color-coded for rapid fiber management. It is compatible with most of the SC connectors. FS supplies a wide range of mating sleeves and hybrid adapters, including special male-to-female hybrid fiber optic adapters. It allows you to get what you need for cabling easily.

Benefits

- ≤ 0.20 (Typical) Low Insertion Loss
- Color Coded for Rapid Fiber Management
- Protective Dust Cap Keeps Adapter's Interior Clean from Dust
- Stainless Steel Clips for Tool-less Snap-in Installation
- Available in A Variety of Connector Types
- Can Be Used with M2 Model Screw

Product Specification

Specification	
Connector type	SC-SC
Body Style	Simplex
Polish Type	UPC
Fiber Mode	OS2 9/125μm
Insertion Loss	≤0.20dB
Durability	1000 times
Mounting Type	Full Flanged
Alignment Sleeve Material	Ceramic
Color	Blue
Flammability Rate	UL 94V-0
Package Quality	10 Pcs
RoHS Compliancy Status	Compliant
